

## Press Release

### For Immediate Release

Telling™ Industries LLC expands manufacturing operations, positioning the company for further growth.

November 13, 2008-- Streetsboro, Ohio: After 5 years of continued growth, Telling Industries expands manufacturing operations with the opening of their Kingman, AZ facility.

On Wednesday November 12, 2008, the company hosted an open house, featuring dedication speeches from the Mayor of Kingman, Mr. John Salem and Telling Vice President, Mr. Troy E. Frank. The company conducted facility tours lead by their Operations staff and served a gourmet luncheon prepared by the local chefs from the historic Hotel Brunswick. The celebration was attended by over 200 guests; including Telling's customers, vendors, BNSF Railroad representatives, the Kingman Chamber and City Council Members.

Mr. Troy Frank, Telling Industries Vice President stated; "Our location in Kingman, AZ is a newly constructed, state of the art manufacturing facility, built specifically for manufacturing metal framing. This facility is a full service location with rail access, slitting and manufacturing all under one roof. Telling has continued to grow and prosper by over delivering what is expected of a metal framing company. We are very excited to be here in Kingman and to have the support of the community."

### About Telling Industries

Telling Industries, LLC manufactures a full line of "C" shaped galvanized steel framing products, as well as an array of complementary accessories for the drywall framing industry. Telling has four locations: Streetsboro, OH, Cambridge, OH, Osceola, AR and newly opened Kingman, Arizona. Telling Industries boasts their ability to service the continental United States.
